DETAILED ACTION

1. The **Final Rejection** of paper #5, dated 9 August 2002, is hereby withdrawn.

Reason: The instant claims are not drawn to specific compounds; only a method of treating sexual dysfunction by administering to a male or female subject a compound, which is "a human MC-4R agonist". Without claiming specific compounds, the metes and bounds of an eventual monopoly grant cannot be ascertained. It is the duty of the Patent Office and the Courts to prevent the blocking off of whole areas of scientific development without compensating benefit to the public. To do so, would over compensate applicants, which is contrary to existing federal statutes.

2. The following is an election of species requirement.

Election/Restrictions

3. Claims 39-75 are generic to a plurality of disclosed patentably distinct species comprising any compound having activity at the human melanocortin-4 receptor. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 1625

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

4. A telephone call was made to Philippe Durette on 30 May 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Margaret Seaman whose telephone number is 703-308-4528. The examiner can normally be reached on 630am-4pm, First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alan Rotman can be reached on 703-308-4698.
